

TO WHOM IT MAY CONCERN

JIMMY TSILFIDES
JT LOW VOLTAGE & DATA NETWORKING

Jimmy has been working with us for almost six years. He initially helped us to set up our Phone System for our new office in Wilton, CT, as a technician with AT&T. Thereafter, we always requested him for our ongoing maintenance and support.

When he branched out on his own a couple of years ago, I was delighted (and prefer) to use Jimmy's services as a private, local contractor, rather than those of the current AT&T support group. It turns out he is cheaper than AT&T and provides a much more reliable service. He has continued to maintain our phone system, recently helping us in April with line upgrades and cut-overs for our PRIs.

I have always found Jimmy to be consistently reliable, timely, courteous and extremely knowledgeable about the telecommunications arena and have no hesitation in recommending him for work.

If you have any questions, you may contact me at 203 834 4445 / tracy.beck@oceanpartners.com

Sincerely,

A handwritten signature in blue ink that reads "Tracy Beck". The signature is written in a cursive, flowing style.

TRACY BECK
Office Manager
